WARNING - This email originated from outside the State of Nevada. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear Ms. Fontaine,

In response to the news that the permit for a Medical Waste facility was approved, we reiterate our opposition in our letter and email below, that was formerly provided in protest of this facility.

Please reconsider the recent approval and REJECT the permit in the appeal of the Medical Waste facility which will deeply alter residents' welfare in Pahrump and other locations in Nevad Nevada.

Thank you for your consideration,
Ted and Elise Adomanis

Subject: Proposed Medical Waste Facility

Below is our opposition letter to the proposed Medical Waste Facility.

July 8, 2026

Permitting Branch Supervisor
Nevada Division of Environmental Protection
Bureau of Sustainable Management
901 S Stewart St, Ste 4001
Carson City, Nevada 89701

RE: Proposed Medical Waste Processing Facility

To the Permitting Branch Supervisor:

As residents of Nye County, we are writing to state our firm opposition to the proposed medical

waste processing facility in or near Pahrump or any other town or city in Nevada. The plan reveals that this waste comes not only from Nevada but is waste from other states as well via a large increase in truck transport traffic on our roads. The project is not appropriate, especially for its proximity to businesses and diverse populations of ranches, elderly and young families.

As you are aware, Pahrump has limited water via our desert aquifer and resources that could be contaminated from air or ground, limited landfill space, limited emergency infrastructure, needy rural roads and dense populations near the proposed location in our unincorporated town.

For quality of life, health reasons, safety and infrastructure concerns, we respectfully request that this project be **DENIED** approval.

Thank you for representing our interests.

Sincerely,

Ted and Elise Adomanis
