The Whalemail.com site is working this morning.

File Name: Ponderosa CNMP.zip

Click Here to Download:

I did not know that this was a limited use site. Apparently, we, the Division, used it too frequently.

If we cannot get the website operational, I will ask you for specific areas of interest and e-mail the appropriate files.

Again, the complete CNMP is available at the Division's Carson City office.

The new whalemail.com download site in your reply gives me a message, "Maximum downloads has been reached." Please give me a site that I can download. John
