**Regulation R130-15:**

The State Environmental Commission adopted regulatory amendments that change the Nevada Administrative Code 445A, revising the Nevada water quality regulations for the former "Class Waters" located in the Lower Humboldt River Basin. Revisions include the addition of numeric criteria for nitrate, nitrite, total suspended solids, turbidity, color, chloride, sulfate, and alkalinity based upon guidance published by the U.S. Environmental Protection Agency. These additions were deemed necessary to properly protect the beneficial uses.
