Classification Proposed Adopted By Agency Temporary Emergency Permanent

R145-17: This permanent regulation revises NAC 445B. The NDEP amended NAC 445B.22097, “Standards of quality for ambient air.” The Nevada ambient air quality standards table in NAC 445B.22097 was amended to align with the national ambient air quality standards (NAAQS) currently in effect. The regulation revises the 8-hour ozone standard in the Nevada standards table from 0.075 to 0.070 parts per million (ppm). The NDEP also simplified the table by deleting the “National Standards” and “Method” columns; both columns are included only for reference and are often out-of-date with respect to the referenced federal regulations.

Authority citation other than 233B: NRS 445B.210 and NRS 445B.300
