T2017-01: This temporary regulation revises NAC 445B. The State Environmental Commission adopted temporary regulation amendments that revise the public notice rule provisions for the air quality program by removing the mandatory requirement to provide public notice of a draft air permit, as well as certain other program actions, through publication in a newspaper. Instead, NDEP will provide electric noticing (e-notice) and website access (e-access) of those actions.

The amendments are:

- Remove the requirement to provide public notice of a draft permit and other actions through publication in a newspaper and replace them with a requirement for e-notice.
- Require draft permits to be posted on a website (e-access).
- Remove the requirement to provide notice of the Director's proposed action and a copy of the draft Class II operating permit to a public library in the area in which the proposed new Class II source or the proposed modification to the existing Class II source is located for posting.
