## **Notice of Workshop for Proposed Permanent Regulation Relating to Solid Waste: NAC 444.748**

R123-11: A Regulation Relating to Solid Waste: This proposed permanent regulation would amend NAC 444.748. The regulation clarifies the jurisdictional responsibilities associated with appeals concerning the management and disposition of solid waste by Nevada's three Solid Waste Management Authorities. The regulation makes clear that only those appeals involving the management of solid waste, which are under the direct regulatory control of the Nevada Division of Environmental Protection, must conform to the procedural rules of the State Environmental Commission as codified under NAC 445B.875.

There will be no additional costs to the agency for enforcement of the proposed regulation and the regulation does not overlap, duplicate or conflict with any regulations of other government agencies. The regulation does not address fees and it is essential to the functions and operations of the Nevada Division of Environmental Protection and the State Environmental Commission.

The following workshop, described below, has been scheduled to solicit comments from persons interested in proposed permanent regulation.
