RE: Penalty Assessments for Air Quality Violation ( NOAV - Notice of  
Alleged Air Quality Violations No. 2380 and 2381)

Frances Barron  
State Board of Health  
Las Vegas, NV

Dear Mr. Beato:

Jason King  
State Engineer  
Division of Water Resources

In November 2011 representatives from the Nevada Division of Environmental Protection (NDEP) met with officials from your company in an enforcement conference to discuss Cal Rocks alleged failure to comply with permitted monitoring recordkeeping and throughput requirements set forth in NDEP's Class II Air Quality Operating Permit AP 1422-2740, COLA2245. As an outcome of that meeting NDEP issued the above referenced NOAV (see attached).

Kathryn Landreth  
Reno, NV

When NDEP sent the NOAV by certified mail on January 10, 2012, it notified Cal Rocks of its appeal rights pursuant to NRS 445B.340 and NRS 445B.360. Since Cal Rocks did not appeal the NOAV, the State Environmental Commission (SEC) will determine the appropriate penalty for the violations contained in NOAV No. 2380 and 2381 at its meeting on February 15, 2012. This meeting will be held on Wednesday, February 15 2012 at 9:00 a.m. at the Nevada Department of Wildlife's Conference Room A, 1100 Valley Road, Reno, Nevada.

Jim Barbee  
Director, Department of  
Agriculture

Pursuant to NRS 445B.640(1), the SEC may levy an administrative fine of not more than \$10,000 per day per violation. Staff from NDEP will provide the SEC with a brief overview of the NOAV and its recommendation for an administrative fine of **\$5,400.00**, which has been calculated from a penalty matrix previously approved by the Commission. The Commission will formally levy a fine by accepting NDEP's recommendation or increasing or decreasing the fine amount based on the information presented at the meeting.
