Re: Regulation P2010-05: Financial Assistance for Construction of Wastewater  
Treatment & Pollution Control Projects

Dear Ms. Corp:

Enclosed for "drafting" by the LCB Legal Division is a proposed permanent regulation that would amend NAC 445A. Proposed revisions to the regulation governing financial assistance for construction of wastewater treatment & pollution control projects are intended to make the Clean Water and Drinking Water Revolving Fund regulations more consistent with program elements such as the Priority List and the Intended Use Plan.

The proposed revisions also remove the requirement that project design be completed prior to project funding. The removal of this requirement will allow communities, which can not afford up front engineering cost, to utilize state revolving funds for such activities. The proposed regulation also removes confusing language for calculating fixed amounts for planning and design costs.

If you have any questions about this regulation please contact Ms. Adele Basham at 687 9488.

Sincerely,

*John B Walker*

John B. Walker  
Executive Secretary
