Classification Proposed Adopted By Agency Temporary Emergency Permanent

Petition R038-12: This regulation amends NAC 445B.22097, "Standards of quality for ambient air," and NAC 445B.221, "Adoption by reference and applicability of certain provisions of federal law and regulations." In NAC 445B.22097, the regulation updates the national ambient air quality standards side of the air quality standards table to align it with the federal standards currently in effect. In NAC 445B.221, the regulation adopts by reference federal regulations that allow Nevada's industry to defer the application of the federal Prevention of Significant Deterioration and Title V permitting requirements to biogenic carbon dioxide emissions from bioenergy and other biogenic stationary sources for three years. The regulation also revises methods for measuring filterable PM10 and PM2.5 and condensable particulate matter emissions from stationary sources.

Authority citation other than 233B: §§1-4, NRS 445B.210.
