R039-11: Motor Vehicle Emissions Inspection and Maintenance Program: This regulation amends the motor vehicle emissions inspection and maintenance program. Specifically, the amendments to NAC 445B.6115 allow exempt vehicles that have been issued special license plates to forgo emissions testing requirements. The changes to the motor vehicle emissions inspection program align the regulations with changes recently made in the statute. AB2 was passed by the 2011 Nevada Legislature and requires that an exemption from the emissions testing program be provided to vehicles which are being issued one of these special license plates.

The categories receiving the exemption are, Antique Vehicles, Street Rods, Classic Rods, and Classic Vehicles, as defined by NRS 482.381, 482.3812, 482.3814, and 482.3816 respectively. The proposed regulation would allow the exemption to be granted only if the owner certifies that the vehicle was not driven more than 5000 miles annually.
