Brief description of action: Regulation R143-07: Nevada Clean Air Mercury Rule Program

This regulation amends NAC 445B.3711 to 445B.3791 of the State "Air Pollution" regulations. The regulation addresses certain technical changes to the regulations governing Nevada's Clean Air Mercury Rule Program (CAMR) including public participation requirements defined in Assembly Bill 67; AB 67 was enacted by the 2007 session of the Nevada Legislature. Among other requirements, AB 67 calls for the adoption of regulations to address public participation in the determination of the amount of mercury allowances [air emissions] available for sale or auction by the Department, i.e., the Nevada Division of Environmental Protection. This regulation fulfills this legislative requirement.
