Regulation R194-07: Proposed On-Site Sewage Disposal System: The Nevada Division of Environmental Protection (NDEP) has established an on-site sewage disposal system regulation. This regulation amends NAC 445A.8335 through NAC 445A.849. As way of background, when the Nevada Legislature transferred the Safe Drinking Water Program from the Division of Health to NDEP in 2005 (SB 395), the authority to regulate commercial (non-residential) septic tanks and leach fields was also transferred. This action created a need for regulatory authority by NDEP of commercial septic systems.
