Regulation R190-08: [BART] Best Available Retrofit Technology & Emission Limitations for Major Electric Generating Units (LCB Draft of Revised Proposed Regulations)

Dear Ms. Corp:

Attached is a permanent regulation referenced above that was adopted by the State Environmental Commission (SEC). Also attached is the filing statement required by NRS 233B.066 and the SEC form for filing administrative regulations with the Secretary of State.

Special Note: This regulation was original approved by the State Environmental Commission at their November 12, 2008 meeting and then it was submitted to LCB for final adoption. It was then withdrawn from LCB and re-submitted to the SEC to correct a minor error in one of the tables. The attached final corrected regulation was "re-adopted" by the SEC on February 11, 2009.

More information about this regulation such as workshop notices and related background information is available on the SEC website at:
http://sec.nv.gov/main/hearing_021109.htm

The contact person for this regulation is Ms. Adele Malone 687-9356.

If you have any questions about these documents please contact me at 687-9308.

Sincerely,

John B Walker

John B. Walker
Executive Secretary
