2. Government Agency – Nevada Division of Environmental Protection (NDEP)
3. The Nevada Division of Environmental Protection, Bureau of Water Quality Planning (NDEP) has completed a review and beneficial use evaluation of North Antelope Creek in the Rock Creek drainage of the Humboldt Basin. NDEP proposes to add the entire length of North Antelope Creek to the Nevada Administrative Code (NAC) to include beneficial uses and numeric criteria to protect those uses.
4. Federal regulations (40CFR 131.20) require states to periodically review their water quality standards.
5. (a) The proposed revisions do not regulate business; therefore, they are not expected to have any direct economic effect on the regulated community both immediately and long term.  
  
(b) The proposed revisions are not expected to have any economic effect on the public both immediately and long-term.  
  
(c) Implementation of the proposed regulations is not expected to result in additional cost by the agency for enforcement.
6. There are no other state or government agency regulations which the proposed revisions duplicate.
7. The federal government has delegated the responsibility of establishing water quality standards to the state; therefore, there is no federal regulation for proposed water quality standards revisions. Revisions of the standards will be submitted to the EPA Regional Administration for review and approval.
8. The regulation does not provide for fees.
