

**FORM FOR PETITIONING THE STATE ENVIRONMENTAL COMMISSION
FOR ADOPTION, FILING AMENDMENTS OR REPEAL OF COMMISSION
REGULATIONS**

1. Kathy Sertic
Chief, Bureau of Water Quality Planning
901 S. Stewart St., Suite 4001
Carson City, Nevada 89701
(775) 687-9455

June 2012

Kathy Sertic

2. Government Agency – Nevada Division of Environmental Protection (NDEP)
3. The Nevada Division of Environmental Protection (NDEP) is proposing changes to select water quality standards for toxic chemicals related to aquatic life. The proposed changes involve amending or adding aquatic life standards in NAC 445A.1236, “Standards for Toxic Materials Applicable to Designated Waters.” The proposed revisions are based on updated criteria values that have been recommended by EPA as national recommended water quality criteria for protection of aquatic life [2009]. No changes are proposed to be made at this time to standards contained in NAC 445A.1236 related to municipal or domestic supply, irrigation, or watering of livestock.
4. Federal regulations (40 CFR 131.20) require states periodically review their water quality standards.
5. (a) The proposed revisions do not regulate business; therefore, they are not expected to have any direct economic effect on the regulated community both immediately and long term.

(b) The proposed revisions are not expected to have any economic effect on the public both immediately and long-term.

(c) Implementation of the proposed regulations is not expected to result in additional cost by the agency for enforcement.
6. There are no other state or government agency regulations which the proposed revisions duplicate.
7. The federal government has delegated the responsibility of establishing water quality standards to the state; therefore, there is no federal regulation for proposed water quality standards revisions. Revisions of the standards will be submitted to the EPA Regional Administration for review and approval.
8. The regulation does not provide for fees.
