Nevada Applicable State Implementation Plan**

The Nevada Division of Environmental Protection (NDEP) is proposing to update the Nevada Applicable State Implementation Plan (ASIP). The ASIP is a State plan that provides for implementation, maintenance and enforcement of the National Ambient Air Quality Standards (NAAQS) and the national secondary ambient air quality standards. The ASIP is submitted to and approved by the U.S. Environmental Protection Agency (EPA) and becomes federally enforceable. Nevada's existing ASIP is for the most part 20 to 30 years old. The proposed new ASIP will essentially replace the existing one.

A public workshop has been scheduled in Carson City to solicit comments on the updated ASIP from interested persons.
