Hi Greg & Jennifer,

I just received a call from Wayne Comp, who is now working in the private sector. He said Mr. Seltenreich retained him to represent his appeal case. He was retained a "couple of days ago" and is asking for an extension on the appeal hearing date. I told him NDEP waived the right to a 20 day hearing but wanted it to be no later than November and both parties agreed to the November 29 date. The SEC briefing schedule requires Mr. Seltenreich to submit his opening brief by this Friday.

I told him that it had been difficult to get the appeal hearing set up but in the end, it is NDEP's choice if they want to agree to reschedule. As an alternative, I told him he could request an extension on the opening brief due date, which will impede on NDEP's timeframe for submitting its response brief.

He said Katie is out of the office until Monday so I recommended he call Rick P.

Just a heads up.

When Nevada offered reciprocity for our certifications with Utah, Utah also allowed you to test 6 months earlier than Nevada. I decided to take my Grade III in Utah following all of their applicable regulations and policies. Utah offered the opportunity to review the exam if you failed. I reviewed the exam and after asking the proctor specifically if I was allowed to take notes, I did. I used my notes to study and prepare so I was successful the next time I took the exam.

Per Regulation R155-17, Section 11.3, I studied appropriately so as never to put the health and safety of the public and environment in jeopardy. I have now had my Grade III and been working as an Operator since 9/30/2013 without any incident that would put the environment or public in danger.

Good afternoon,

Mr. Seltenreich has completed filing an SEC appeal of the NDEP's proposed action to revoke his certification. As stated in the proposed action, this stays the revocation pending the outcome of the SEC appeal hearing. He has waived his right to a hearing within 20 days, assuming NDEP does the same, we will begin to coordinate calendars for a Hearing (they are incredibly difficult to pull off in that short of a time). We will keep you posted.

Hi Shanon,

I have a hard copy letter coming to you for sending by both e-mail and hard copy? When emailing to Mr. Seldenreich, please turn on the tracking for delivery and read receipts. Let me know if you are not familiar with those functions. If/when you get the receipts to your e-mail, please print them out for me. The recipient can refuse to send the receipts via the email system, so we may not get them back.

It is critical that we receive the certified mail tracking information (again printed) when it is signed for by the recipient. So, if you could check for that delivery receipt starting Monday, it will hopefully be available.

In a separate transmittal, the ec email addresses in addition to Katrina and Val are:

He will respond to Ms. Parker that we are ok with that and will work to have a new proposed date early next week. I said that NDEP intends for it to be heard before Christmas.

The hearing date was selected after consultation with the parties.

The SEC has jurisdiction to hear this appeal pursuant to NRS 445A.425 and NRS 445A.605. The regulation alleged by NDEP to have been violated, as cited in the September 26, 2018 Notice of Proposed Revocation is Nevada Administrative Code ("NAC") R155-17. Mr. Seltenreich contests the alleged violation and has identified the following statutory basis for appeal: NRS 445B.890(2)(a), NRS 445B.890(2)(d), and NRS 445B.890(2)(e).

About the Appeal: On October 2, 2018, Mr. Seltenreich filed his appeal.

In summary, Mr. Seltenreich has contested the proposed revocation of his Grade III Nevada Wastewater Treatment Operator Certificate NV-876 because he claims that NDEP's Notice of Proposed Revocation was:

- (1) Made in violation of constitutional and statutory provisions;
- (2) Affected by other error of law; and
- (3) Was clearly erroneous in view of the reliable, probative and substantial evidence on the whole record.

Specific issues include but are not limited to, the manner in which Mr. Seltenreich obtained his Grade III Nevada Wastewater Treatment Operator Certificate NV-876. The issues for this appeal are, or will be, further clarified in the pre-hearing briefs ordered by the SEC on October 19, 2018.

Hearing Procedure: Practice before the SEC is governed by the attached regulations found at NAC 445B.875 et seq. The online version is located at: <http://www.leg.state.nv.us/NAC/NAC-445B.html#NAC445BSec875>
NRS 233B.121 to 233B.150 are also applicable. See: <http://www.leg.state.nv.us/NRS/NRS-233B.html#NRS233BSec121>

All, I'm not sure that there is much that we can do at this point, since we haven't heard from him since early 2012 and his file is now inactive since he had never obtained a Utah certification. However, I am available on the 1st at 9:00 a.m., which appears to be the only common time for the others who have responded, if you would like me to participate.

Subject: Seltenreich emails

Hello All,

0036

We were all in receipt of the emails yesterday regarding Nathaniel Seltenreich from the Clark County Water Reclamation District. I think we all have different areas of concern in this matter, but it may be good if we all knew what actions the others were taking, or contemplating taking.

I would be happy to organize a conference call tomorrow or Thursday to facilitate a discussion.

Here are a couple of times, just to get the ball rolling, we can modify as desired (all times PST):

Wednesday, Nov 1, 1:00pm

Thursday, Nov 2, 9:00am

Thursday, Nov 2, 1:00pm

Thursday, Nov 9, 10:00am

Thursday, Nov 9, 1:00pm

Please let me know which date and time would work best for you, if you have availability for multiple times, or if you would prefer to not be included in the conference call.

Thank you very much,

Adrian

Here's a draft of the notice letter to Nate, in case you have any comments.

Everyone's available on the afternoon of 12/12/17. May not exactly get the two weeks' notice when we mail the letter out certified, but we'd be close.

Please let me know if that's ok.

Mr. Seltenreich,

The Nevada Board of Certification for Wastewater Treatment Plant Operators (herein called the Certification Board) is responsible for administering the wastewater operator certification program for the Nevada Division of Environmental Protection. The Certification Board takes very seriously its responsibility to assure that operators with the appropriate knowledge, skills, and abilities are fairly certified to their appropriate Grade and that they adhere to the Code of Conduct.

A vital part of validating operator knowledge is the certification exam. The Certification Board recognizes the importance of the examination process, and takes the integrity, security, and intellectual property of the exams seriously. Nevada utilizes standardized exams developed and maintained by the Association of Boards of Certification.

The Clark County Water Reclamation District has notified the Certification Board of an apparent misuse of operator certification exam materials. You were named in the communication as having been inappropriately in possession of exam materials. The Certification Board is investigating this matter to determine if any impropriety occurred, and whether any disciplinary actions would be appropriate. The Certification Board is requesting to meet with you to discuss this matter.

Certification Board members are located throughout the state, so the meeting will be held by a combination of in-person and video conference. The meeting will be audio taped.

Meeting Information:

Hello [REDACTED],

Thank you for following up on this matter. Neither the board nor NDEP has dealt with a situation like this before in recent memory, so we have been going through the process to ensure that is dealt with properly and fairly. The information and subsequent determinations are currently with our administrators being discussed. A decision will likely be made soon on what the outcome of this issue will be. I want you to be assured that we have taken this very seriously and we are working to resolve this outstanding issue very soon.

If you have any questions or would like to talk you can email me or call me.

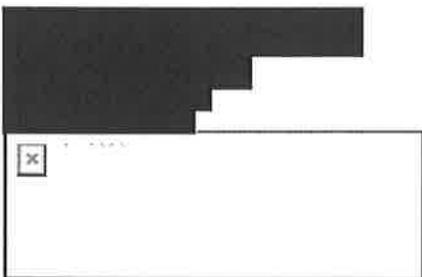

Thank you.

Subject: ABC Testing Information

Hi Nikki,
It's been a while. I have a question about the ABC testing information that I turned in that had been in Nate Seltenreich's possession. I am wondering if there will be any repercussions for having the information, because it has been just over a year since I turned in the information.

On a lighter note, I am looking forward to seeing you at Tri-State this year.

MEMORANDUM

To: Greg Lovato, P.E., Administrator
 Through: Jennifer Carr, P.E., Deputy Administrator
 Through: Bruce Holmgren P.E., Chief, Bureau of Water Pollution Control
 From: Katrina Pascual, P.E.

Subject: Wastewater Operator Certification: Disciplinary Action Recommendation

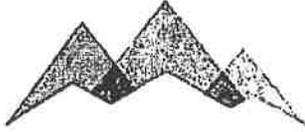

The Bureau of Water Pollution Control requests authorization to revoke the Nevada Grade III Wastewater Operator Certification from Nathan Seltenreich and to prohibit Mr. Seltenreich from applying for Operator Certification for a period of five years from the date of revocation due to obtaining the Grade III and attempting to obtain the Grade IV operator certification through the subversion of the required examinations.

NDEP's contractor, the Nevada Water Environment Association, operates the Nevada Board of Certification for Wastewater Treatment Plant Operators (Board). On October 31, 2017, the Board contacted NDEP regarding the discovery of copies of official Grade III and IV exams at the Clark County Water Reclamation District facility (CCWRD) where Mr. Seltenreich is employed. Photocopies of Utah Grade III exam book/answer sheet and an almost complete retyped Grade IV exam were found in a CCWRD file cabinet. These documents were found with other documents bearing Mr. Seltenreich's name. The copy of the Grade III and the retyped Grade IV exams have been verified to be the exams given in Utah in 2011 and 2012 where Mr. Seltenreich failed these exams and subsequently passed the nearly identical Grade III and IV exams in Nevada. The copy of the Grade III exam answer sheet has also been verified to be the answer sheet for the 2011 exam Mr. Seltenreich took in Utah.

Summary of Seltenreich examination dates, grade, location and scores ($\geq 70\%$ pass):

March 04, 2011 – Grade III - Utah – 60%
 May 09, 2011 – Grade III - Nevada – 75%
 December 02, 2011 – Grade IV - Utah – 63%
 February 23, 2012 – Grade IV - Nevada – 91%

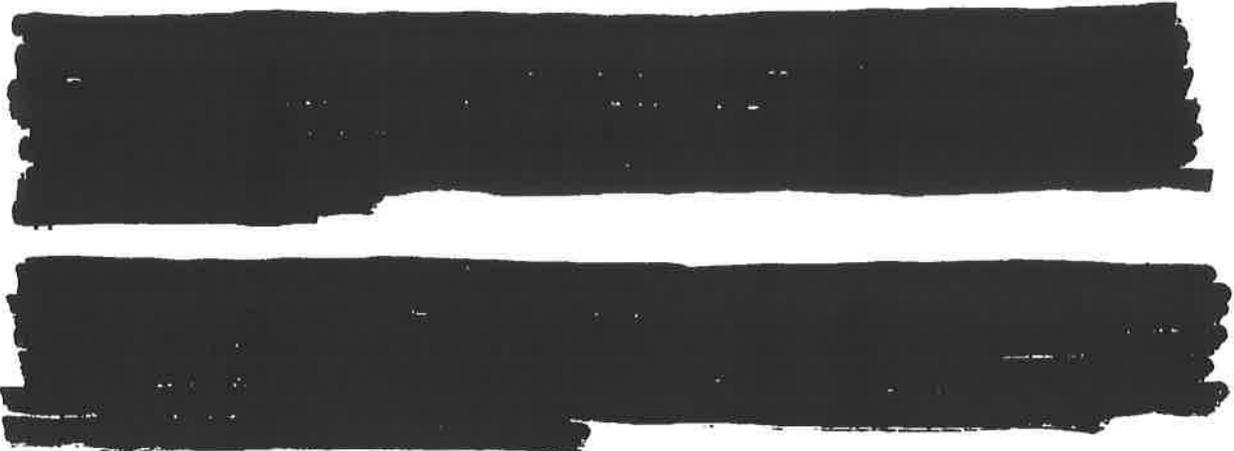

In 2011 and 2012, Utah regulation allowed for examinees who fail the certification exam to review the exam with their corrected answer sheet. These review sessions were proctored and the examinee was not allowed to take notes from this session. Mr. Seltenreich went to a review session a month after each failed Utah exam and subsequently, after less than 3 months of original exams in Utah, passed the operator certification Grade III and IV exams in Nevada with 15% and 28% improvements, respectively. Following the February 2012 Grade IV exam, Mr. Seltenreich's Grade IV exam was reviewed by the Board and he admitted to taking notes during the Utah Grade IV exam review. The Board invalidated his passing Grade IV exam and barred him from retaking the Grade IV exam for one year. He retained the Grade III certificate.

NEVADA DIVISION OF ENVIRONMENTAL PROTECTION

The proctor for the Utah Grade IV exam reported to ABC and Utah that the Grade IV exam booklet had gone missing after a review session that Mr. Seltenreich had attended, but this was not reported the Board.

The Board conducted a meeting with Mr. Seltenreich on December 12, 2017 to discuss the investigation findings. Mr. Seltinreich admitted to owning the documents found at CCWRD except the photocopies of the Grade III exam book/answer sheet. The Board submitted their findings and recommendations to NDEP on January 24, 2018. The Board's first recommendation is to permanently revoke Mr. Seltenreich's Nevada Certification. The second recommendation is revoke Mr. Seltenreich's Nevada Certification for a period of five years and nullify all previous experience. After five years, Mr. Seltenreich would need to begin at Grade I operator certification exam and meet the education and experience requirements in place at that time. In addition, he will need to successfully complete ethics training approved by NDEP.
