

BEFORE THE STATE OF NEVADA ENVIRONMENTAL COMMISSION

In Re:

Appeal of Medical Waste Treatment
Facility Permit: Permit No SW1900REV00
MediWaste Disposal LLC

**ORDER DENYING APPELLANT'S
MOTION TO CLARIFY AND LIMIT
THE SCOPE OF INTERVENTION,
EVIDENCE, AND ARGUMENT**

The State Environmental Commission, having reviewed Appellant A.J. Brown's Motion to Clarify and Limit the Scope of Intervention, Evidence, and Argument, the responses filed by the Nevada Division of Environmental Protection and MediWaste Disposal LLC, and good cause appearing,

IT IS HEREBY ORDERED that Appellant's Motion is DENIED.

NAC 445B.8915 permits a person who may be directly and substantially affected by a proceeding to petition for leave to intervene. MediWaste Disposal LLC is the permittee and may be directly and substantially affected by the outcome of this appeal. Accordingly, MediWaste may participate as an intervenor in this proceeding consistent with NAC 445B.8915 and the Commission's prior order granting intervention.

Appellant's request to further limit MediWaste's participation is premature. The admissibility, relevance, and scope of any evidence, testimony, or argument may be addressed if and when a specific issue is presented. The Motion is also moot to the extent it seeks to limit oral argument, as Appellant has waived oral argument.

IT IS FURTHER ORDERED that nothing in this Order expands the issues on appeal or alters the applicable rules governing the administrative record, evidence, briefing, or party participation in this proceeding.

1 Dated this 24th day of September 2026.
