Regulatory Petitions

7) Permanent Regulatory Petition R113-22 - Bureau of Water Quality Planning (For Possible Action)

Nevada Revised Statute (NRS) 445A.425 established the authority of the State Environmental Commission to adopt regulations to carry out provisions of NRS 445A.300-445A.730, including standards of water quality and the amounts of waste that may be discharged into waters of the State. NRS 445A.565 requires any

surface waters of the State whose quality is higher than the applicable standards of water quality as of the date when those standards become effective must be maintained in their higher quality. This maintenance of water quality is referred to as antidegradation. R113-22 amends the Nevada Administrative Code (NAC) to establish provisions for antidegradation protection of surface waters of the State as required by NRS 445A.565.

The proposed changes are expected to have some potential economic impact on the public and on the Division.

Note that this regulatory petition, R113-22, was previously submitted as R119-20. Additional supporting materials and documents can be found on the NDEP Bureau of Water Quality Planning website (<https://ndep.nv.gov/water/rivers-streams-lakes/water-quality-standards/current-and-past-actions>).

- 8) **Administrator's Briefing to the Commission: (Discussion Only)** Administrator Jennifer Carr will provide the Commission general management updates.
- 9) **Public Comment:** Members of the public will be invited to speak before the SEC; however, no action may be taken on a matter during public comment until the matter itself has been included on an agenda as an item for possible action. Public comment may be limited to three minutes per person at the discretion of the chairperson.
