## **Permanent Regulation R113-22: Bureau of Water Quality Planning - Establishment of Provisions to Protect Nevada's Surface Waters from Degradation**

Nevada Revised Statute (NRS) 445A.425 established the authority of the State Environmental Commission to adopt regulations to carry out provisions of NRS 445A.300-445A.730, including standards of water quality and the amounts of waste that may be discharged into waters of the State. NRS 445A.565 requires any surface waters of the State whose quality is higher than the applicable standards of water quality as of the date when those standards become effective must be maintained in their higher quality. This maintenance of water quality is referred to as antidegradation. R113-22 amends the Nevada Administrative Code (NAC) to establish provisions for antidegradation protection of surface waters of the State as required by NRS 445A.565.

The proposed changes are expected to have some potential economic impact on the public and on the Division.

The SEC must receive written submissions at least five days before the scheduled public hearing.

If no person who is directly affected by the proposed action appears to request time to make an oral presentation, the SEC may proceed immediately to act upon any written submissions.
