Permanent Regulation R119-24: Bureau of Air Quality Planning - Adopting Federal Regulations by Reference

R119-24 is proposing to amend sections 445B.220 and 445B.221 of Nevada Administrative Code (NAC) to adopt by reference applicable provisions of federal law and regulations to prevent, abate, and control air pollution and to establish standards for air quality (Nevada Revised Statutes [NRS] 445B.210). Under existing regulations, the Commission has adopted by reference certain provisions of federal regulations and certain standards for testing air quality. (NAC 445B.221) This regulation: (1) revises which provisions of federal regulations are adopted by reference; (2) revises certain standards for testing air quality previously adopted by reference; and (3) updates the price for and manner of obtaining the publications containing those standards.

Permanent Regulation R126-24: Bureau of Corrective Actions - Alignment of Brownfield Regulatory Language with Federal Regulations

R126-24 proposes to amend Chapter 459 of the NAC to ensure consistency with the terms and conditions entered by the state with the U.S. EPA regarding the use of federally granted Fund for Brownfield Projects (Fund). The proposed revisions: 1) define new terms introduced by the proposed revisions; 2) identify the goal of the Fund; 3) expand existing match funds to include in-kind services and provide relief from match for disadvantaged recipients; 4) increase the percentage of the Fund available for subgrant to eligible entities; and 5) expand eligible uses of the Fund, which is currently limited to cleanup, to include planning, community involvement, site assessment, and other tasks necessary for successful Brownfield property redevelopment.

The proposed changes are not expected to have any adverse economic impacts on the public, the regulated community, or the Division.

Permanent Regulation R130-24: Bureau of Corrective Actions - Regulatory Clean-up in Response to the Governor's Executive Order EO2023-003
