State Environmental Commission

Classification: Proposed ☐ Adopted By Agency ☐ Temporary ☐ Emergency ☐ Permanent ☒

R123-24: This permanent regulation revises NAC 445A. The State Environmental Commission adopted permanent regulation R123-24P, which addresses Nevada's Clean Water State Revolving Fund program. This regulation aligns the Clean Water State Revolving Fund regulations with the Drinking Water State Revolving Fund regulations, changes to the Nevada Revised Statutes resulting from Assembly Bill 20 from Nevada's 82nd Legislative Session, and with the federal Clean Water Act. These proposed amendments expand the list of recipients eligible to receive program funds; define "affordability criteria;" amend the environmental review process for potential construction projects; amend administrative fees for the program; and provide general clean up of outdated language and processes.

The State Environmental Commission adopted permanent regulation R123-24RP1 with NDEP-proposed edits, which revised language in NAC 445A to clarify that all eligible projects that receive funds from the Clean Water State Revolving Fund program must follow prevailing wage requirements in the federal Davis-Bacon Act and/or NAC and NRS chapter 338.013-338.090, inclusive.
