R025-25: This permanent regulation revises NAC 445A. The State Environmental Commission adopted permanent regulation R025-25P, which addresses Nevada's Safe Drinking Water program. This regulation adopts federal rules into regulations to request and obtain primacy over the Lead and Copper Rule Revisions and Lead and Copper Rule Improvements. Adopting these rules into regulation and updating primacy will allow NDEP to implement, manage, and enforce the federal rule requirements as promulgated. This will also allow public water systems to work directly with NDEP rather than with the federal Environmental Protection Agency.
