Summary:

- Alex Lanza (Alex), Cassie Ehleringer (Cassie), and Dustin Deitch (Dustin) started the Public Workshop (Workshop) by introducing themselves and then asked the participants to state their name and the organization they represent; attendees were also requested to sign in.
- Alex reviewed the various ways the public could participate during the Workshop, which included telephone, virtual, and in-person.
- Alex discussed how regulations are revised/created and the role the State Environmental Commission (SEC) has in the process, including the public's ability to attend and comment on these regulations at the SEC hearing.
- The presenters provided background information on the proposed changes and how each rule would be explained in more detail.
- Alex discussed the initial plan was to include the PFAS rule in this set of regulatory changes, but NDEP decided not to include this rule at this time due to changes to the proposed PFAS regulations.
- Alex explained the need for the adoption of the "adoption by reference" of the LCRR, LCRI and CCR rules and the impact that it would have in the regulated community
- Cassie then explained the Lead Copper Rule Revision and what is included. She discussed the parts of the rule that are already in place and about other applicable deadlines.
- Cassie then explained the Lead Copper Rule Improvement (LCRI), what the rule encompasses and all applicable deadlines.
- Dustin explained the new Consumer Confidence Rule (CCR), what the rule encompasses and all applicable deadlines.
- When presentations concluded, Alex provided contact information and opened the workshop for questions; Alex also reminded attendees of public comment period.
- No questions or comments were brought up.
