

**SECOND REVISED PROPOSED REGULATION OF THE
STATE ENVIRONMENTAL COMMISSION**

LCB File No. R103-14

October 7, 2014

EXPLANATION – Matter in *italics* is new; matter in brackets ~~omitted material~~ is material to be omitted.

AUTHORITY: §§1-4, NRS 445A.425 and 445A.520.

A REGULATION relating to water quality; revising certain water quality standards relating to South Fork Reservoir; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

The State Environmental Commission is required to establish water quality standards to protect and ensure the continued beneficial use of each stream segment and other body of surface water in this State. (NRS 445A.520) This regulation revises the water quality standards for South Fork Reservoir in Elko County.

Section 1. Chapter 445A of NAC is hereby amended by adding thereto a new section to read as follows:

*The limits of this table apply to the entire body of water known as South Fork Reservoir.
South Fork Reservoir is located in Elko County.*

X = *Beneficial use.*

^a Refer to NAC 445A.122 and 445A.1432 for beneficial use terminology.

^b Maximum allowable increase in temperature above water temperature at the boundary of an approved mixing zone, but the increase must not cause a violation of the single value standard.

^c When reservoir is stratified, the dissolved oxygen criterion applies only to the epilimnion.

^d June-September average for the entire reservoir within the upper meter of the water column. These nutrient criteria are considered attained if:

- 1 The chlorophyll a criterion is met regardless of the level of total phosphorus or total nitrogen; or
- 2 If chlorophyll a data are not available, both the total phosphorus and total nitrogen criteria are met.

^e The ambient water quality criteria for ammonia are specified in NAC 445A.118.

^f One-hour and 96-hour average concentration limits may be exceeded only once every 3 years.

Sec. 2. NAC 445A.1432 is hereby amended to read as follows:

445A.1432 The designated beneficial uses for select bodies of water within the Humboldt

Region are prescribed in this section:
